

SECRETS OF THE SURFACE

The Mathematical Vision of Maryam Mirzakhani

A film by George Csicsery, SF State Cinema alumnus

A documentary look at the life and scientific contributions of Iranian Mathematician, Professor Maryam Mirzakhani (12 May 1977 – 14 July 2017). She is the first woman to be honored with the Fields Medal, the most prestigious award in mathematics, for her work in the dynamics and geometry of Riemann surfaces and their moduli spaces.

Where → San Francisco State University
Fine Arts Building-Room 101
Coppola Theater

When → Thursday, May 04, 2023

Film → 3:30-4:30

Panel → 4:30-5:30
